ANNUAL INDEX
VOLUME 65

No. 1	January 1991	1-48
No. 2	February 1991	49-96
No. 3	March-April 1991	97-152
No. 4	May 1991	153-200
No. 5	June 1991	201-248
No. 6	July-August 1991	249-304
No. 7	September 1991	305-352
No. 8	October 1991	353-400
No. 9	November-December 1991	400-456

Author Index

Aldous JA, Aldous SG: Management of oral health for the HIV-infected patient. *JDH* 1991;65:143-145.

Aldous SG: See Aldous JA, 143.

Anderson D: See Lawson K, 340.

Barker GJ, Barker BF: Management of the patient undergoing cancer chemotherapy: The role of the dental hygienist. *JDH* 1991;65:184-187.

Barker BF: See Barker, 184.

Barnes C: Management of aerosols with airpolishing delivery systems. *JDH* 1991;65:280-282. See also Fleming, 441.

Barnes CM, Fleming LS, Russell CM: An in-vitro evaluation of commercially available disposable prophylaxis angles. *JDH* 1991;65:438-440.

Beck FM: See Nordstrom, 428.

Bisno AL: See Dajani, 240.

Brunick A, Driscoll RE: Legal considerations for periodontal treatment. *JDH* 1991;65:274-276.

Chung KJ: See Dajani, 240.

Cianflone D, Riccelli AE: Ethical considerations for dental hygienists in private practice settings. *JDH* 1991;65:277-279.

Colbert DM: See Daniel, 234.

Conrad JC, Conrad KJ, Osborn JB: Median nerve dysfunction evaluated during dental hygiene education and practice (1986-1989). JDH 1991;65:283-288.

Conrad KJ: See Conrad JC, 283.

Dajani AS, Bisno AL, Chung KJ, Durack DT, Freed M, Gerber MA, Karchmer AW, Millard HD, Rahimtoola S, Shulman ST, Watanakunakorn C, Taubert KA: Prevention of bacterial endocarditis: Recommendations by the American Heart Association (reprint). *JDH* 1991;65:240-245.

Daniel SJ, Colbert DM: A nonclinical model for predicting scaling and root planing case difficulty. *JDH* 1991;65:234-239.

Driscoll RE: See Brunick, 274.

Drisko CL: See Krust, 289.

Durack DT: See Dajani, 240.

Fleming LS: See Barnes, 438.

Fleming LS, Barnes CM, Russell CM: An in-vivo comparison of commercially available disposable prophylaxis angles. *JDH* 1991;65:441-444.

Forgas LB, Nilius AM: Assessing periodontal disease: The role of bacteriological, immunological, and DNA assays. *JDH* 1991;65:188-193.

Freed M: See Dajani, 240.

Gerber MA: See Dajani, 240.

Graves CE, Portnoy EJ: Identifying hearing impairment among older adults. *JDH* 1991;65:138-142.

Gross K: See Krust, 289. See also Lawson, 340.

Gurenlian JR: Report of the president. *JDH* 1991;65:160, 162, 164, 166.

Hoffman LA: See White SL, 433.

Jefferies D, Morris JW, White VP: KVP meter errors induced by plastic wrap. *JDH* 1991;65:91-93.

Karchmer AW: See Dajani, 240.

Kaz ME: See Stabbe, 33.

Krust KS, Drisko CL, Gross K, Overman P, Tira DE: The effects of subgingival irrigation with chlorhexidine and stannous fluoride: A preliminary investigation. *JDH* 1991;65:289-295.

Lawson K, Gross KBW, Overman PR, Anderson D: Effectiveness of chlorhexidine and sodium fluoride in reducing dentin hypersensitivity. *JDH* 1991;65:340-344.

Lemon S: See Reveal, 20.

Little SJ, Stevens VJ: Dental hygiene's role in reducing tobacco use: A literature review and recommendations for action. *JDH* 1991;65:346-350.

Lukken KM, See McConaughy, 222.

Macdonald G, Wilson SG, Waldman KB: Physical characteristics of the hand and early clinical skill: Their relationship in a group of dental hygiene students. *JDH* 1991;65:380-384.

McCann AL: Identification of nontraditional dental hygienists and their educational degrees: A strategy for baccalaureate program recruitment. *JDH* 1991;65:231-233.

McConaughy FL, Lukken KM, Toevs SE: Health promotion behaviors of private practice dental hygienists. *JDH* 1991;65:222-230.

McCormack-Brown KR: Dental hygienists' attitudes towards AIDS: A descriptive survey. *JDH* 1991;373-378.

Miller DL: An investigation into attrition of dental hygienists from the work force. *JDH* 1991;65:25-31.

Millard HD: See Dajani, 240.

Morris JW: See Jefferies, 91.

Newell KJ: See Stoltenberg, 445.

Nilius AM: See Forgas, 188.

Nordstrom NK, Uldricks JM, Beck FM: Selective polishing: An educational trend in dental hygiene. *JDH* 1991;65:428-432.

Osborn JB: See Conrad, 283. See also Stoltenberg, 445.

Overman P: See Krust, 289. See also Lawson, 340.

Parker WA: See Vitasek, 385.

Pellegrino CS, Titus HW: Remedial psychomotor methodologies for the adult dyslexic: A pilot study. *JDH* 1991;65:368-372.

Portnoy EJ: See Graves, 138.

Rahimtoola S: See Dajani, 240.

Reveal M, Lemon S: Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. *JDH* 1991;65:20-23.

Riccelli AE: See Cianflone, 277.

Rich SK: Test anxiety: Relationship to academic and clinical performance in dental hygiene students. *JDH* 1991;65:390-395.

Rossman JA: See Tracey, 70.

Russell CM: See Barnes, 438. See also Fleming, 441.

Saline LM: Personality characteristics and career choice among dental hygiene students enrolled in non-baccalaureate programs. *JDH* 1991;65:130-137.

Shulman ST: See Dajani, 240.

Shuman D: See Tolle-Watts, 124. See also Tolle-Watts, 194.

Stabbe K, Kaz ME: OSHA and the healthcare worker. *JDH* 1991;65:33-38.

Stern K: Chronic fatigue syndrome: New disease on the horizon. *JDH* 1991;65:39-41.

Stevens VJ: See Little SJ, 346.

Stoltenberg JL, Newell KJ, Osborn JB: Enhancing dental hygiene education through residency programs. *JDH* 1991;65:445-449.
Taubert KA: See Dajani, 240.
Tira DE: See Krust, 289.
Titus HW: See Pellegrino, 368.
Toevs SE: See McConaughy, 222.
Tolle-Watts SL, Shuman D: AIDS education in dental hygiene programs in the United States and Canada. *JDH* 1991;65:124-129.
A model for integrating student and faculty research. *JDH* 1991;65:194-197.
Tracey MB, Rossmann JA: Management of the diabetic patient: A review and case report. *JDH* 1991;65:70-78.
Uldricks JM: See Nordstrom, 428.
Vitasek BA, Parker WA: The ACT as a predictor of success on the national board dental hygiene examination. *JDH* 1991;65:385-389.
Waldman KB: See Macdonald, 380.
Waring MB: Factors affecting participation in external degree completion programs. *JDH* 1991;65:80-90.
Watanakunakorn C: See Dajani, 240.
White SL, Hoffman LA: A practice survey of hygienists using an air-powder abrasive system: An investigation. *JDH* 1991;65:433-437.
White VP: See Jefferies, 91.
Wilson SG: See Macdonald, 380.
Zachariasen RD: Ovarian hormones and gingivitis. *JDH* 1991;65:146-150.
Effect of antibiotics on oral contraceptive efficacy. *JDH* 1991;65:334-338.

Subject Index

CLINICAL PROCEDURES
A practice survey of hygienists using an air-powder abrasive system: An investigation. White SL, et al., 433.
Prevention of bacterial endocarditis: Recommendations by the American Heart Association (reprint). Dajani AS, et al., 240.
Chemotherapeutic agents
Antimicrobials
Effectiveness of chlorhexidine and sodium fluoride in reducing dentin hypersensitivity. Lawson K, 340.
The effects of subgingival irrigation with chlorhexidine and stannous fluoride: A preliminary investigation. Krust KS, et al., 289.
Data collection/patient assessment
Effect of antibiotics on oral contraceptive efficacy. Zachariasen RD, 334.
Management of the patient undergoing cancer chemotherapy: The role of the dental hygienist. Barker GJ, et al., 184.
Dental hygiene treatment planning
Health promotion behaviors of private practice dental hygienists. McConaughy FL, et al., 222.
Management of the diabetic patient: A review and case report. Tracey MB, et al., 70.
Management of the patient undergoing cancer chemotherapy: The role of the dental hygienist. Barker GJ, et al., 184.
Prevention of bacterial endocarditis: Recommendations by the American Heart Association (reprint). Dajani AS, et al., 240.
Planning oral hygiene education
Health promotion behaviors of private practice dental hygienists. McConaughy FL, et al., 222.
Planning treatment and sequence
Management of the diabetic patient: A review and case report. Tracey MB, et al., 70.
Management of medical emergencies
Management of the diabetic patient: A review and case report. Tracey MB, et al., 70.
Patient education
Dental hygiene's role in reducing tobacco use: A literature review and recommendations for action. Little SJ, et al., 346.
Effect of antibiotics on oral contraceptive efficacy. Zachariasen RD, 334.
Health promotion behaviors of private practice dental hygienists. McConaughy FL, et al., 222.
Prevention of disease transmission
KVP meter errors induced by plastic wrap. Jefferies D, et al., 91.
OSHA and the healthcare worker. Stabbe K, et al., 33.
Preventive agents
Fluoride
Effectiveness of chlorhexidine and sodium fluoride in reducing dentin hypersensitivity. Lawson K, 340.
Oral irrigation
The effects of subgingival irrigation with chlorhexidine and stannous fluoride: A preliminary investigation. Krust KS, et al., 289.
Oral mouthrinses
Effectiveness of chlorhexidine and sodium fluoride in reducing dentin hypersensitivity. Lawson K, 340.
Radiology
KVP meter errors induced by plastic wrap. Jefferies D, et al., 91.
Root planing
The effects of subgingival irrigation with chlorhexidine and stannous fluoride: A preliminary investigation. Krust KS, et al., 289.
Scaling
The effects of subgingival irrigation with chlorhexidine and stannous fluoride: A preliminary investigation. Krust KS, et al., 289.
Tooth
Selective polishing: An educational trend in dental hygiene. Nordstrom NK, et al., 428.
Polishing and cleansing
Management of aerosols with airpolishing delivery systems. Barnes C, 280.
Selective polishing: An educational trend in dental hygiene. Nordstrom NK, et al., 428.
Devices
An in-vitro evaluation of commercially available disposable prophylaxis angles. Barnes CM, et al., 438.
An in-vivo comparison of commercially available disposable prophylaxis angles. Fleming LS, et al., 441.
Management of aerosols with airpolishing delivery systems. Barnes C, 280.
Agents
Management of aerosols with airpolishing delivery systems. Barnes C, 280.
COMPETENCE/QUALITY ASSURANCE
Ethical considerations for dental hygienists in private practice settings. Cianflone D, et al., 277.
CONTINUING EDUCATION
Factors affecting participation in external degree completion programs. Waring MB, 80.
Attitude toward
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
DELIVERY
Special population groups
Identifying hearing impairment among older adults. Graves CE, et al., 138.
Management of the diabetic patient: A review and case report. Tracey MB, et al., 70.
Management of oral health for the HIV infected patient. Aldous JA, et al., 143.
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
Medically compromised
Chronic fatigue syndrome: New disease on the horizon. Stern K, 39.
Dental hygienists' attitudes towards AIDS: A descriptive survey. McCormack-Brown KR, 373.
Management of the diabetic patient: A review and case report. Tracey MB, et al., 70.

Oncology (cancer)
Management of the patient undergoing cancer chemotherapy: The role of the dental hygienist. Barker GJ, et al., 184.
Other
Management of oral health for the HIV infected patient. Aldous JA, et al., 143.
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
DEMOGRAPHIC CHARACTERISTICS
Dental hygienists
Dental hygienists' attitudes towards AIDS: A descriptive survey. McCormack-Brown KR, 373.
Health promotion behaviors of private practice dental hygienists. McConaughy FL, et al., 222.
An investigation into attrition of dental hygienists from the work force. Miller DL, 25.
Physical characteristics of the hand and early clinical skill: Their relationship in a group of dental hygiene students. Macdonald GM, et al., 380.
DENTAL HYGIENE BUSINESS
Marketing
Personality characteristics and career choice among dental hygiene students enrolled in non-baccalaureate programs. Saline LM, 130.
DENTAL HYGIENE CAREERS
Employee/employer relations
Ethical considerations for dental hygienists in private practice settings. Cianflone D, et al., 277.
An investigation into attrition of dental hygienists from the work force. Miller DL, 25.
Employment rates
An investigation into attrition of dental hygienists from the work force. Miller DL, 25.
Employment settings
Identification of nontraditional dental hygienists and their educational degrees: A strategy for baccalaureate program recruitment. McCann AL, 231.
Personality characteristics and career choice among dental hygiene students enrolled in non-baccalaureate programs. Saline LM, 130.
Recruitment
Personality characteristics and career choice among dental hygiene students enrolled in non-baccalaureate programs. Saline LM, 130.
Roles
Dental hygiene's role in reducing tobacco use: A literature review and recommendations for action. Little SJ, et al., 346.
Personality characteristics and career choice among dental hygiene students enrolled in non-baccalaureate programs. Saline LM, 130.
DENTAL HYGIENE EDUCATION
The ACT as a predictor of success on the national board dental hygiene examination. Vitasek BA, et al., 385.
Factors affecting participation in external degree completion programs. Waring MB, 80.
A nonclinical model for predicting scaling and root planing case difficulty. Daniel SJ, et al., 234.
Remedial psychomotor methodologies for the adult dyslexic: A pilot study. Pellegrino CS, et al., 368.
Selective polishing: An educational trend in dental hygiene. Nordstrom NK, et al., 428.
Admission/recruitment
The ACT as a predictor of success on the national board dental hygiene examination. Vitasek BA, et al., 385.
Identification of nontraditional dental hygienists and their educational degrees: A strategy for baccalaureate program recruitment. McCann AL, 231.
Physical characteristics of the hand and early clinical skill: Their relationship in a group of dental hygiene students. Macdonald GM, et al., 380.
Curriculum
AIDS education in dental hygiene programs in the United States and Canada. Tolle-Watts SL, et al., 124.
Identification of nontraditional dental hygienists and their educational degrees: A strategy for baccalaureate program recruitment. McCann AL, 231.
A model for integrating student and faculty research. Tolle-Watts SL, et al., 194.
Remedial psychomotor methodologies for the adult dyslexic: A pilot study. Pellegrino CS, et al., 368.
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
Cognitive skills
Test anxiety: Relationship to academic and clinical performance in dental hygiene students. Rich SK, 390.
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
Psychomotor skills
Physical characteristics of the hand and early clinical skill: Their relationship in a group of dental hygiene students. Macdonald GM, et al., 380.
Remedial psychomotor methodologies for the adult dyslexic: A pilot study. Pellegrino CS, et al., 368.
Faculty
A model for integrating student and faculty research. Tolle-Watts SL, et al., 194.
Need
Factors affecting participation in external degree completion programs. Waring MB, 80.
Philosophy and methodology
AIDS education in dental hygiene programs in the United States and Canada. Tolle-Watts SL, et al., 124.
A model for integrating student and faculty research. Tolle-Watts SL, et al., 194.
Selective polishing: An educational trend in dental hygiene. Nordstrom NK, et al., 428.
Professional socialization (internships, residencies)
Enhancing dental hygiene education through residency programs. Stoltenberg JL, et al., 445.
A model for integrating student and faculty research. Tolle-Watts SL, et al., 194.
Programs
AIDS education in dental hygiene programs in the United States and Canada. Tolle-Watts SL, et al., 124.
Factors affecting participation in external degree completion programs. Waring MB, 80.
Undergraduate
AIDS education in dental hygiene programs in the United States and Canada. Tolle-Watts SL, et al., 124.
Factors affecting participation in external degree completion programs. Waring MB, 80.
Students
Identification of nontraditional dental hygienists and their educational degrees: A strategy for baccalaureate program recruitment. McCann AL, 231.
A model for integrating student and faculty research. Tolle-Watts SL, et al., 194.
Personality characteristics and career choice among dental hygiene students enrolled in non-baccalaureate programs. Saline LM, 130.
Physical characteristics of the hand and early clinical skill: Their relationship in a group of dental hygiene students. Macdonald GM, et al., 380.
Test anxiety: Relationship to academic and clinical performance in dental hygiene students. Rich SK, 390.
Remedial psychomotor methodologies for the adult dyslexic: A pilot study. Pellegrino CS, et al., 368.
ETHICS
Ethical considerations for dental hygienists in private practice settings. Cianflone D, et al., 277.
Legal considerations for periodontal treatment. Brunick A, et al., 274.
ETIOLOGY ORAL DISEASES
Immunological
Assessing periodontal disease: The role of bacteriological, immunological, and DNA assays. Forgas LB, et al., 188.
Chronic fatigue syndrome: New disease on the horizon. Stern K, 39.
Plaque
Assessing periodontal disease: The role of bacteriological, immunological, and DNA assays. Forgas LB, et al., 188.
Microscopic
Management of aerosols with airpolishing delivery systems.

Barnes C, 280.
Tobacco
Dental hygiene's role in reducing tobacco use: A literature review and recommendations for action. Little SJ, et al., 346.
INFECTION CONTROL
KVP meter errors induced by plastic wrap. Jefferies D, et al., 91.
Management of aerosols with airpolishing delivery systems. Barnes C, 280.
OSHA and the healthcare worker. Stabbe K, et al., 33.
LEGISLATIVE/JURISPRUDENCE
Legal considerations for periodontal treatment. Brunick A, et al., 274.
OSHA and the healthcare worker. Stabbe K, et al., 33.
Regulations
Legal considerations for periodontal treatment. Brunick A, et al., 274.
OSHA and the healthcare worker. Stabbe K, et al., 33.
OCCUPATIONAL HAZARDS
OSHA and the healthcare worker. Stabbe K, et al., 33.
Communicable diseases
AIDS education in dental hygiene programs in the United States and Canada. Tolle-Watts SL, et al., 124.
Other
Median nerve dysfunction evaluated during dental hygiene education and practice (1986-1989). Conrad JC, et al., 283.
ORAL HEALTH
Health promotion behaviors of private practice dental hygienists. McConaughy FL, et al., 222.
Attitude toward
Health promotion behaviors of private practice dental hygienists. McConaughy FL, et al., 222.
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
Education
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
Special population group
Dental hygiene's role in reducing tobacco use: A literature review and recommendations for action. Little SJ, et al., 346.
Survey of dental hygienists' perceptions of their educational preparation regarding oral care for the mentally ill. Reveal M, et al., 20.
PATIENT
Identifying hearing impairment among older adults. Graves CE, et al., 138.
Management of the diabetic patient: A review and case report. Tracey MB, et al., 70.
A practice survey of hygienists using an air-powder abrasive system: An investigation. White SL, et al., 433.
Management
Effect of antibiotics on oral contraceptive efficacy. Zachariasen R, 334.
Identifying hearing impairment among older adults. Graves CE, et al., 138.
Management of the diabetic patient: A review and case report. Tracey MB, et al., 70.
PERIODONTAL DISEASE
Legal considerations for periodontal treatment. Brunick A, et al., 274.
A nonclinical model for predicting scaling and root planing case difficulty. Daniel SJ, et al., 234.
Ovarian hormones and gingivitis. Zachariasen RD, 146.
Classification
A nonclinical model for predicting scaling and root planing case difficulty. Daniel SJ, et al., 234.
Diagnosis
Assessing periodontal disease: The role of bacteriological, immunological, and DNA assays. Forgas LB, et al., 188.
Etiology
Ovarian hormones and gingivitis. Zachariasen RD, 146.
Screening
Legal considerations for periodontal treatment. Brunick A, et al., 274.
A nonclinical model for predicting scaling and root planing case difficulty. Daniel SJ, et al., 234.
PLAQUE CONTROL
Health promotion behaviors of private practice dental hygienists. McConaughy FL, et al., 222.
PRODUCT EVALUATION
An in-vitro evaluation of commercially available disposable prophylaxis angles. Barnes CM, et al., 438.
An in-vivo comparison of commercially available disposable prophylaxis angles. Fleming LS, et al., 441.
PROFESSION
Association business
Report of the president. Gurenlian JR, 160.
Attitudes
Dental hygienists' attitudes towards AIDS: A descriptive survey. McCormack-Brown KR, 373.
Dental hygienists
Dental hygienists' attitudes towards AIDS: A descriptive survey. McCormack-Brown KR, 373.
Ethical considerations for dental hygienists in private practice settings. Cianflone D, et al., 277.
Dentists
Ethical considerations for dental hygienists in private practice settings. Cianflone D, et al., 277.
Future
Identification of nontraditional dental hygienists and their educational degrees: A strategy for baccalaureate program recruitment. McCann AL, 231.
Public awareness
Median nerve dysfunction evaluated during dental hygiene education and practice (1986-1989). Conrad JC, et al., 283.
PUBLIC SERVICE
Dental hygiene's role in reducing tobacco use: A review and recommendations for action. Little SJ, et al., 344.
RESEARCH
Median nerve dysfunction evaluated during dental hygiene education and practice (1986-1989). Conrad JC, et al., 283.
Remedial psychomotor methodologies for the adult dyslexic: A pilot study. Pellegrino CS, et al., 368.
Applied
An in-vitro evaluation of commercially available disposable prophylaxis angles. Barnes CM, et al., 438.
An in-vivo comparison of commercially available disposable prophylaxis angles. Fleming LS, et al., 441.
Design and methodology
Remedial psychomotor methodologies for the adult dyslexic: A pilot study. Pellegrino CS, et al., 368.
Theory development
Assessing periodontal disease: The role of bacteriological, immunological, and DNA assays. Forgas LB, et al., 188.
